Education

Indian Institute of Information Technology Ranchi

2023 – 2027

Bachelor of Technology in computer science and engineering, Grade: 8.24

Ranchi, Jharkhand

Technical Skills

Languages: Core Java, Adv java, python, scala, JavaScript, SQL

Backend development: spring, spring boot, spring mvc, spring security, spring Aop, spring AI, hibernate, Microservices, Distributed Systems, Rest API, Jwt Authentication, Git, Github, problem solving, System design, swagger API

Cloud and database: Mysql, Postgresql, MongoDB, Nosql, Redis, Aws, Docker, CI/CD pipelines

Coursework: Object-Oriented Programming (OOP), Operating Systems, Database Management Systems(DBMS), Data Structures and Algorithms, computer Network, software development, Professional Communication

Agentic AI: Langchain, LangGraph, CrewAI, OpenAISDK, MCP, RAG, multi-agent architectures

Experience

Earn My Money

Apr 2026 – June 2026

Java Backend developer Intern

Remote

- Monitored production application logs on AWS CloudWatch, identifying and resolving critical bugs
- Built a user risk profile feature using AWS Lambda, detecting fraudulent users with 95% accuracy
- Optimized database performance using indexes, materialized views, and temporary tables, reducing API and query latency by approximately 35%
- Integrated conversion tracking through Google Ads postbacks and event capturing via PostHog, enabling accurate analytics and campaign attribution

Infosys Springboard

Nov 2025 – Jan 2026

Java Developer Intern

Remote [\[Certificate\]](#)

- Contributed to two repositories and merged 40+ pull requests delivering new features and bug fixes.
- Designed 25+ RESTful APIs, improving response time by 30% via indexing, caching, and materialized views
- Integrated Java Mail Sender for automated email notifications, reducing manual follow-ups by 70%
- Participated in code reviews, debugging, and feature enhancements to ensure high-quality application delivery.

Converteasly

May 2025 – Aug 2025

Java Developer Intern

Remote [\[Certificate\]](#)

- Built and shipped new tools/features adopted by 1,000+ users, achieving a 4.6/5 user rating
- Implemented Elasticsearch-based search functionality, reducing search response time by 22% improving result relevance
- Monitored AWS application logs and resolved 15+ critical production bugs, improving system stability

Projects

NextHire | Java, Spring Boot, Spring Security, Hibernate, Spring AI, Microservices, PostgreSQL, Elasticsearch [\[GitHub\]](#)

- Designed a scalable microservices architecture with six services (Auth, User, Company, AI, API Gateway, and Eureka), improving modularity, maintainability, and service discovery
- Built AI-powered ATS scoring and JD-based interview screening using Groq LLM API to automate candidate evaluation
- Implemented Elasticsearch for job search, reducing search latency by 15%
- Optimized API performance via database indexing and caching, reducing query latency

Connectify | Java, spring, Spring Boot, Spring Security, JWT, Hibernate, MySQL, WebSocket, Postman [\[GitHub\]](#)

- Built and secured 30+ REST APIs for a social media platform using JWT, Spring Security, and role-based access control
- Integrated WebSocket-based real-time chat supporting 100+ concurrent connections with under 200ms latency
- Optimized database performance using Hibernate ORM and JPQL queries, improving query execution time by 30%

Achievements & Certifications

- Achieved a global rank of 512 in LeetCode Weekly Contest 488, with a maximum rating of 1902 on LeetCode.
- Solved 650+ DSA questions on coding platforms like LeetCode, GeeksforGeeks, and Coding Ninjas.
- Served as Coordinator and Tech Lead of House of Geeks.
- Earned Infosys Springboard Certification in Programming in Java. [\[Certificate\]](#)
- Certified Postman API Fundamentals Expert. [\[Certificate\]](#)
- Earned Infosys Springboard Certification in Database Management Systems. [\[Certificate\]](#)
